Treats and rawhide - ask the companies. In case of questions in regard of foods - ask the companies.

No responsibility is taken for the correctness of this information. Changes of ingredients are subject to the producers.

Please note: most commercial available animal feed contains animal fat and oils, which does not origin from the same species as the single protein source does (exception Vet-Concept).

The fat and oils are highly purified, nevertheless they may contain sometimes remnant proteins, which can lead to adverse food reactions.
